

## BIIA Webinar

**BIIA is de Business Information Industry Association, waarmee we ook in het kader van FECMA samenwerken. Zij organiseren een interessant webinar waarvoor wij onze leden mogen uitnodigen.**

Macroeconomic and geopolitical changes in the last few years have resulted into a major shift in global trading partnerships and with that global supply chains. At the same time, we have seen supply chain regulations being introduced at a country and regional level, such as in Germany and in the EU. This has resulted in businesses facing the dilemma of trying to stay competitive in an increasing complex macroeconomic environment whilst at the same time ensuring compliance with increasing regulation. Join the webinar to hear our panel of experts share their views on the following key issues: • the dynamics and complexity of supply chains based on the changing macroeconomic and geopolitical risks • Developments in Supply Chain regulations • How the regulation is impacting industry – what the German industry is saying after one year of the German Supply Chain Act.

**Join us on Wednesday, 15 May, 2024 🕒 Time: 10.00am – 11.00am CET**

Speakers:

**Jenny Paurys**, SVP Global Business Leader in Data & Insight Solutions, S&P Global Market Intelligence  
**Jonathan Kaupenjohann**, Referent für Rohstoffpolitik, BDI – Bundesverband der Deutschen Industrie e.V.

The webinar will be moderated by **Ingrid Riehl**, Director and Board Member, BIIA
